

# 2020 Parkway Tree Program

## THE PROGRAM

As part of the Village's ongoing environmental effort and to increase the number of trees in town, the Village will share the cost of about 60 new parkway trees. The Village will contribute 50% of the cost of the trees with residents providing the remaining \$175.00. Participation in the program is strictly voluntary and is limited to owner-occupied homes. Trees will be planted in May (as weather permits) and our certified arborist will monitor the health of the tree during the initial growing season.

## PLACEMENT

Each new parkway tree must be placed midway between the curb (or pavement edge) and the sidewalk (or 7' from the pavement for locations without a sidewalk), at least 30' from any other parkway tree, at least 10' from a driveway and at least 45' from an intersection. Every attempt will be made to locate the tree as indicated on the order form; however, locations will be reviewed for suitability and to avoid utility conflicts. Please make your drawing as clear as possible, noting the location of your house, curb, sidewalk, driveways, intersections, existing trees, fire hydrants or any other objects in the area.

Choice	Description
	<i>Exclamation Planetree</i> - 2 1/2" caliper (60' tall x 30' wide at maturity) medium growing hybrid selection of London Planetree selected for its uniform, upright-pyramidal habit and resistance to anthracnose. Attractive, exfoliating bark of cream, olive and light brown color.
	<i>Swamp White Oak</i> - 2 1/2" caliper (55' tall x 55' wide at maturity) medium growing, broad spreading and majestic native oak with yellow fall color.
	' <i>State Street</i> ' <i>Miyabe Maple</i> - 2 1/2" caliper (40' tall x 30' wide at maturity) medium sized, upright rounded shade tree, free of serious insect or disease problems. Good yellow fall color.
	' <i>Triumph</i> ' <i>Hybrid Elm</i> - 2 1/2" caliper (55' tall x 50' wide at maturity) fast growing tree with shiny dark green leaves turning a nice yellow in fall. Bred for its resistance to Dutch Elm Disease and shows many of the desirable traits of the American Elm.
	' <i>Autumn Splendor</i> ' <i>Horsechestnut</i> - 2 1/2" caliper (20' tall x 20' wide at maturity) medium sized horsechestnut with rounded canopy, large yellow panicles of flowers in spring and maroon fall color. Resistant to summer leaf scorch.
	' <i>Ivory Silk</i> ' <i>Japanese Tree Lilac</i> - 2 1/2" caliper (20' tall x 15' wide at maturity) slow growing tree of small stature that makes it suitable for planting beneath power lines. Large clusters of creamy white flowers in June.
	' <i>Renaissance Reflection</i> ' <i>Paper Birch</i> - 2 1/2" caliper (50' tall x 25' wide at maturity) tall, fast-growing tree with striking bark that displays dark green foliage throughout the season, changing to a golden color in the fall. Resistant to bronze birch borer.
