

Public Sidewalk Settlement Trip Hazards

COMMUNITY DEVELOPMENT DEPARTMENT & PUBLIC WORKS DEPARTMENT

Prepared By: Scott Drabicki, Village Engineer

Revision Date: May 17, 2016

Purpose

The Village will remediate trip hazards defined as a $\frac{3}{4}$ " vertical differential on public sidewalk.

Scope

This procedure is intended to remediate trip hazards on public sidewalks.

Responsibilities

The Public Works Department is responsible for inspecting and remediating public sidewalks that pose a trip hazard. Inspection should be performed by the Street Division of the Public Works Department.

Procedure

After receipt of a complaint the Public Works Department will evaluate the amount and severity of differential settlement. Remediation may consist of hydraulically lifting the sidewalk, removal and replacement, grinding, or temporary patching or ramping.
